

Eco Apps Solutions

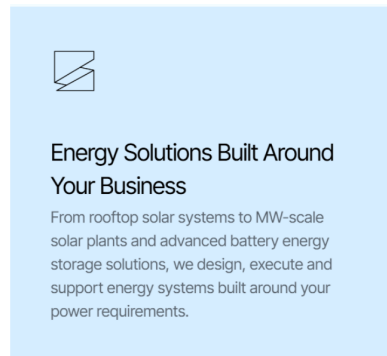

Website Screenshot-Based Correction Document

Developer Handoff • Each screenshot is followed by the corrected implementation instruction

Purpose	Convert the handwritten/rough correction notes below each screenshot into clear developer instructions.
Reference	Original Eco Apps Solar Correction Document – 10 screenshots/pages.
Instruction	Implement only the corrections specified for each screenshot and preserve the existing design wherever no changes are specified.

1. Home Page – Section Corrections

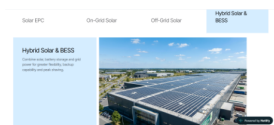

Reference Screenshot

Remove this card and align the images

Same content remove any one

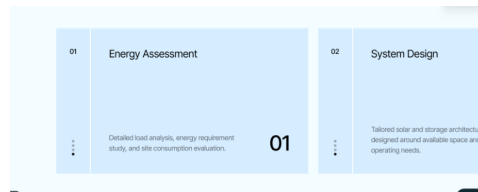

Separate hybrid solar and bess and do separate

Developer Correction Instructions

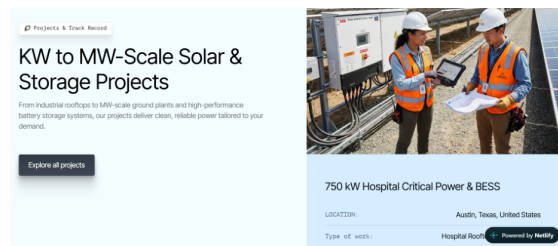

1. Remove this card and align the remaining images properly.
2. The “3+ Years of Solar Project Experience” content is duplicated. Remove either one of the duplicate sections.
3. Separate “Hybrid Solar” and “BESS” into two different solution sections/cards. Do not combine them.

2. Home Page – Process, Projects & CTA

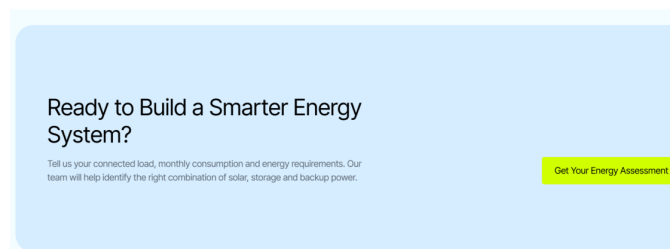

Reference Screenshot

Reduce the size of the card by reducing space

Remove Projects and track record section completely

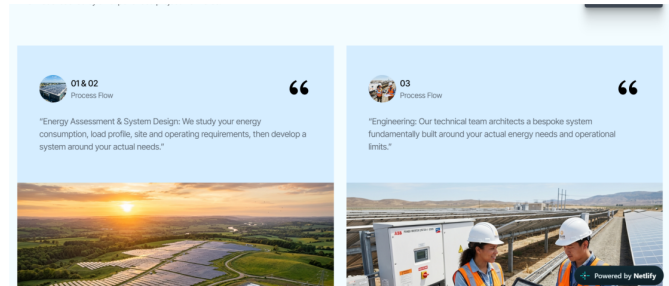

Reduce size of cta and make smaller

Developer Correction Instructions

1. Reduce the size of the cards by reducing the excessive spacing and internal padding.
2. Remove the entire “Projects & Track Record” section.
3. Reduce the size and height of the CTA section to make it more compact.

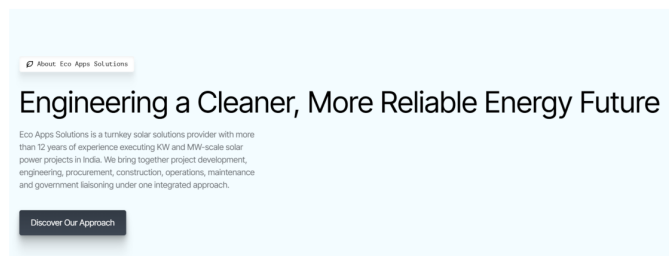

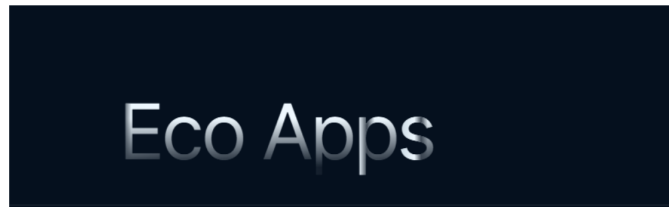

3. Home Page – Why Choose Us, Footer & Intro

Reference Screenshot

In this why choose us remove the cards and make a flow process that fits to the template

In footer write Eco Apps Solutions

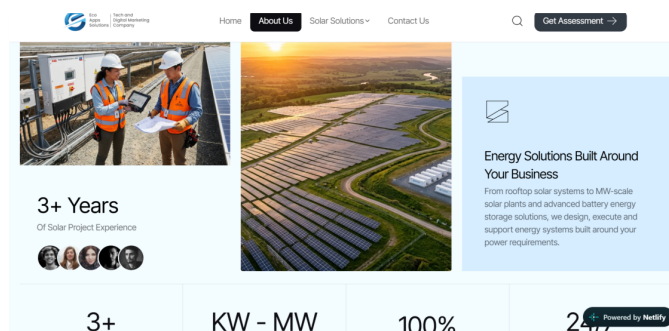

Change text alignment for the small paragraph and keep an image at background

Developer Correction Instructions

1. In the "Why Choose Us?" section, remove the existing cards and create a clean process flow that fits the existing template.
2. In the footer, change the brand name/text to "Eco Apps Solutions".
3. Change the alignment of the small paragraph and use a suitable background image for the section.

4. About Us Page – Main Section

Reference Screenshot

Remove this section for about us page

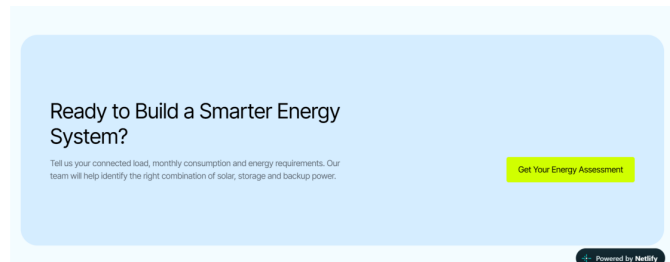

Reduce the size of the image and make the content as heading paragraph structure

Developer Correction Instructions

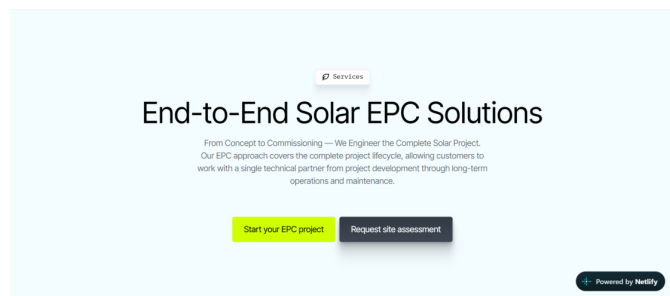

1. Remove this section completely from the About Us page.
2. Reduce the size of the image and restructure the content into a clear heading-and-paragraph format.

5. About Us Page – Footer & Background

Reference Screenshot

Reduce size of the footer in about us page also

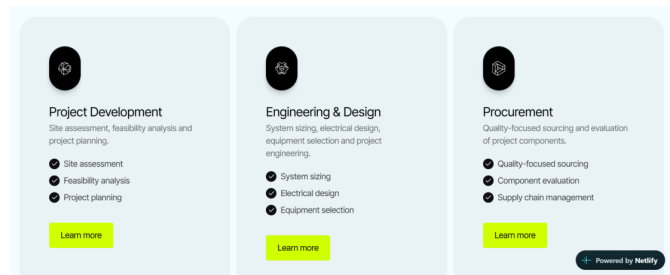

Use image in background

Developer Correction Instructions

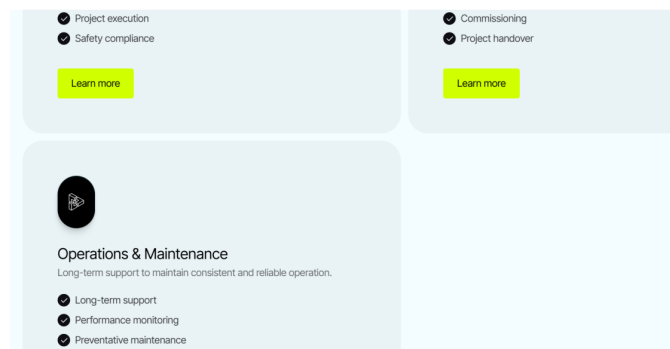

1. Reduce the size of the footer on the About Us page as well.
2. Use a suitable background image for this section.

6. Solar EPC Page – Service Cards & CTA

Reference Screenshot

Reduce card size

Keep 3 cards and in second line 3 cards

After this remove all the sections and came to cta and footer and in cta reduce the size

Developer Correction Instructions

1. Reduce the size of the cards and remove excessive empty space.
2. Keep 3 cards in the first row and 3 cards in the second row.
3. After these 6 cards, remove all remaining sections and move directly to the CTA and footer.
4. Reduce the size/height of the CTA section.

7. On-Grid & Off-Grid Solar Pages

Reference Screenshot

Use background image

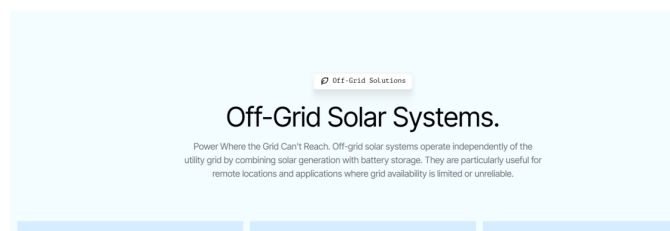

Reduce the card Size

How it works content missing

Ideal for Content mismatch

Reduce the size of the footer

The above cartons are in on grid page

Use background image

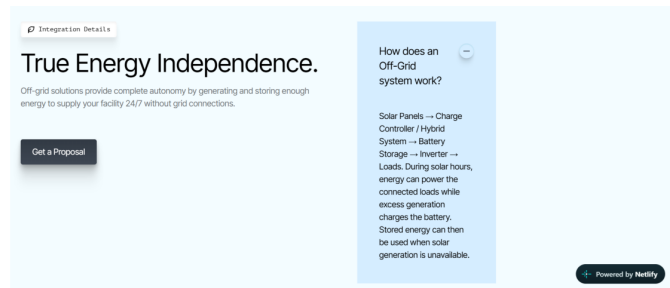

And below that reduce the card size

Developer Correction Instructions

1. Use a suitable background image for the section.
2. Reduce the size of the cards.
3. The "How It Works" content is missing. Add the required content.
4. The "Ideal For" content does not match. Replace it with the correct content.
5. Reduce the size of the footer.
6. The above card layout belongs to the On-Grid page. Keep the cards properly arranged within the On-Grid page grid.
7. Use a suitable background image for the Off-Grid section as well.
8. Reduce the size of the cards below the Off-Grid section.

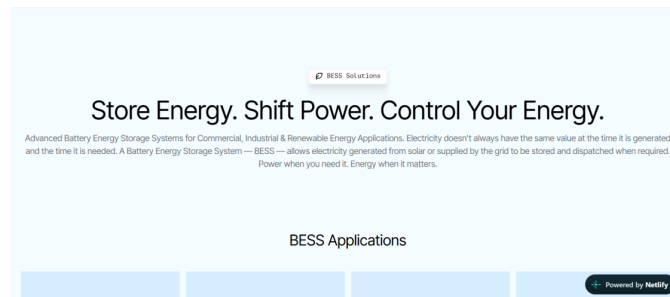

8. Hybrid Solar Page

Reference Screenshot

Remove this content and place how it works after this keep cta like all pages

The above are corrections of hybrid solar

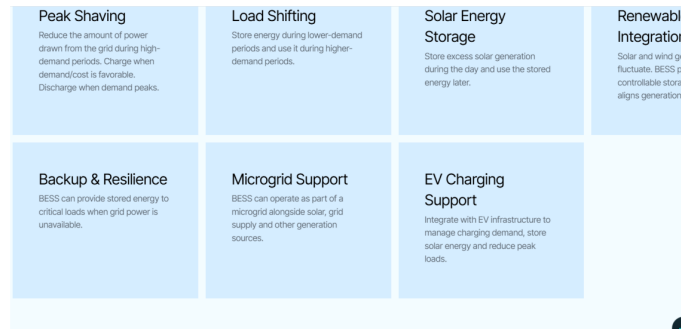

Use background image
Align the text

Developer Correction Instructions

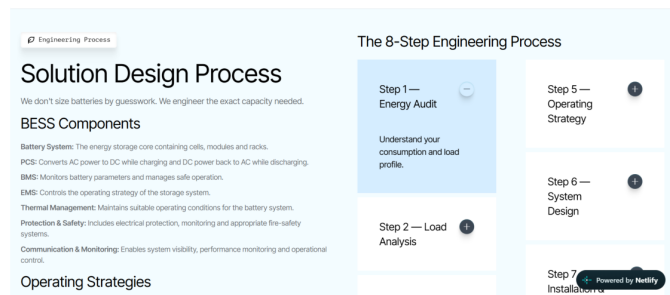

1. Remove the existing content shown in this section and place the “How It Works” section after the appropriate introductory content.
2. Keep the CTA consistent with the other pages.
3. The above corrections are specifically for the Hybrid Solar page.
4. Use a suitable background image for the section.
5. Align the text properly within the section.

9. BESS Page

Reference Screenshot

Reduce the card size

All content are pasted messy use separate sections for each topic and align properly

Reduce size of cta and make footer like other pages

Developer Correction Instructions

1. Reduce the size of the cards.
2. The content is currently placed in a messy layout. Separate the content into individual sections for each topic and align everything properly.
3. Reduce the size of the CTA and make the footer consistent with the other pages.

10. Contact Us Page
